&
ACCOUNTING

August 11, 2009

Becky Smith has decorated both my home and my office. I had never worked with an interior decorator before, so I wasn't sure what to expect. The experience each time was much better than I anticipated. She has a gift for seeing how colors, fabrics, and styles go together. While I find it difficult to arrange what I have and coordinate pieces, she does it extremely well and in a timely fashion.

Her ideas are very fresh and up to date. Her prices are surprisingly affordable for all the design work involved. She was able to utilize many items I already owned and add in some new decorative pieces, hardware, and paint that completely updated my kitchen and living room area while staying within my budget. The quality of her work is incredible.

My new office really flows with the artwork and layout of the furniture and accessories. I get compliments all the time from my clients, who really feel comfortable when they come by for an appointment. It has really been a joy to find someone who is so reliable, efficient, and focused on pleasing her customers. I highly recommend her for any type of decorating or interior design work.

Sincerely,

Karen S. Freeman, CPA
